

Grade 4 Zoo Excursion

On Wednesday 6th May, the Grade 4 students visited the Melbourne Zoo. Each class completed a 45 minute session with zoo educators entitled, "All But Lost". Students had the privilege of patting some endangered animals, including an American snake species and a green tree frog. Students will continue learning about endangered species and how humans can influence the survival of a species during the term. We would like to take this opportunity to thank the parent helpers for assisting on the day and encourage all parents to discuss this important topic with their children.
