

Grade 1 Music Program

Grade 1A in the Music room. Here are the grade 1A's inventing actions and movements to different songs. Children have been working in pairs, small groups and demonstrating their new knowledge to their classmates. The children have also been learning about different percussion instruments. Next week they will be playing small musical scores and adding percussive sounds to a story. The aim is to show how sound can enhance a narrative when reading it orally. What a great time they have been having!
