

20/06/2023

Dear Resident / Business Owner,

## **Craigieburn Road Upgrade: Winter works**

We're upgrading Craigieburn Road between Mickleham Road and the Hume Highway to help you get home safer and sooner. We've delivered the Mickleham/Craigieburn Road intersection, as well as the Hume Highway connection, and we're working quickly to further upgrade Craigieburn Road.

### **What's happening?**

Works to upgrade and signalise intersections are progressing well and we'll soon accelerate works on Craigieburn Road, working 20 hours a day, six days a week, to install stormwater drainage and increase the number of new lanes open to traffic. We'll close Craigieburn Road between Hanson Road and Bridgewater Road from **9pm Friday 23 June to Saturday 19 August 2023**. When this section of road reopens there will be two lanes operating in each direction.

You'll still be able to get to sports venues, the recreation centre, local school, places of worship, businesses, services, and homes within the work zone – and emergency service access will be maintained at all times.

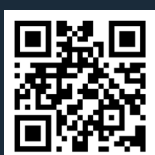

Detours during this closure will be via Cimperwood Drive, Dianne Avenue and Hanson Road.

### **What we're doing**

From 9pm Friday 23 June to Saturday 19 August 2023, working from 7am until 3am Monday to Saturday, we will undertake works to build the new carriageways along Craigieburn Road between Hanson and Bridgewater roads including:

- Building new pavement
- Earthworks to build the new lanes and intersections
- Installing new and upgrading existing drainage
- Upgrading shared user paths and bus stops
- Installing new traffic signals and streetlights.

The timeframe for these works may change as some activities are weather dependent. We'll keep you updated as works progress.

## What to expect

During these works you may experience detours and delays – please allow an additional 20 minutes for travel during peak times. You may also notice some noise from machinery such as generators, trucks, excavators, some vibration, dust, and light spill from the work area.

We'll do our best to minimise impacts, including monitoring noise, vibration and dust levels however, if you have concerns, please contact us to discuss available options.

## Changes to how you travel

Please take care and allow extra time for travel through these works. There will be speed reductions and changed traffic conditions, which will be signposted.

Road users will not be able to travel through Craigieburn Road between Bridgewater and Hanson roads, but the map in this letter will show you how to access businesses, services and homes inside the work zone.

Businesses and services will remain open during works, so please support them and shop local.

## Pedestrian and bus detours

There'll be pedestrian and bus detours associated with these works. For your safety, please use the signposted detours. Some bus stops will be temporarily relocated to Dianne Avenue. If you travel by bus, please check the location of your usual bus stops. Detour information will be available on PTV website and at bus stops.

## Keeping you informed

We'll continue to provide regular updates to let you know about upcoming works. For more information, or to sign up for email and SMS updates visit [roadprojects.vic.gov.au/subscribe](https://roadprojects.vic.gov.au/subscribe).

If you have any questions, please contact us on **1800 105 105** (24 hours a day, 7 days a week) and select option 5 to speak to a member of our team.

We appreciate your patience and understanding throughout these works.
